ALAN 42 DS Lithium

The evolution of the best-selling portable CB.

The autonomy doubles and the recharge is 10 times faster.

PORTABLE CB

ALAN 42 DS Lithium

ALAN 42 DS Lithium Edition is the evolution of Midland's portable CB transceiver par excellence, the Alan 42 DS. The premium-level audio experience guaranteed by digital squelch and ANL and Noise Blanker filters that eliminate disturbances caused by external sources or by the vehicle, is combined with all the advantages of the 2800 mAh lithium-ion battery pack: the autonomy of use is doubled and recharging is 10 times faster.

ALAN 42 DS Lithium Edition: to stay connected, longer.

KEY POINTS

ALWAYS CHARGED

charge time is doubled compared to AA batteries

FAST RECHARGE

with USB C cable full charge in 2 hours

UNIQUE AUDIO EXPERIENCE

with digital squelch and ANL and Noise Blanker filters

LIGHTWEIGHT AND COMPACT

weighs only 182 grams

PORTABLE CB

ALAN 42 DS Lithium

TECHNICAL FEATURES

- Frequency: 26.565-27.99125 MHz (Default band: 40CH FM 4W)
- Output power: 4W AM/FM
- DS: digital squelch
- Noise Blanker/ANL Filters
- EMG emergency channel
- Keypad lock (LOCK)
- Battery level indicator
- High/low power
- AM/FM selection
- Scan, dual watch
- Weight: 182 g (without batteries)
- Dimensions: 30x70x165 mm

COMPLIANCE

Device in compliance with the RE-D 2014/53/EU regulation

ALAN 42 DS Lithium Edition is Midland's best-selling portable CB transceiver, with **digital squelch** that activates automatically upon reception of the incoming signal, eliminating the need for manual intervention.

The big news is the integration of the **2800 mAh lithium-ion** battery pack which guarantees a **doubled life cycle** and greater capacity compared to rechargeable AA batteries (1800 mAh). The **USB C port** makes the power system efficient and universal: with the USB C/USB C cable, full charge is reached in a maximum of **two hours** (ten times faster than AA batteries) wherever you want, without the need for a wall power supply.

The LEDs on the model make it easier to understand the progress of the charge and indicate its completion.

A brand new power supply system that also has a positive impact on the weight of ALAN 42 DS Lithium Edition, makes it light (**182 g**) and perfect to always keep on hand.

The cleaning of the audio is guaranteed by the **Noise Blanker** and **ANL** filters which intervene on the disturbances coming from inside or outside the vehicle. The possibility to choose the power (**4W/1W**), the **Scan** and **Dual Watch** functions and the immediate access to the **EMG** emergency channel enrich the transceiver.

ALAN 42 DS Lithium Edition allows you to select any **European band**, turning it into a great ally for travel in EU countries.

With the best audio technology and the power system with lithium-ion battery pack, **ALAN 42 DS Lithium Edition** is perfect for those looking for communication efficiency and versatility of use.

PACKAGING AND CODES

C1267.S1

The package includes: 1 transceiver, Li-Ion 2800mAh 3-cell battery pack (12V), **USB-C/USB-C cable for battery pack recharging**, empty pack for alkaline batteries, car adapter with socket for external antenna, antenna, belt clip, strap wrist,
