

Tourist Guide

> TelMe

- ▶ Europe-wide compatible due to 2.4 Ghz ISM band solution
- ▶ User friendly
- ▶ Receiver compatible to iPhone and similar headsets
- ▶ Crystal clear sound reception up to 100 m range
- ▶ 39 groups selectable

The TelMe Tourist Guide is the perfect communication system for touristic purposes, such as group trips, city excursions, cruises etc. TelMe is also very useful in museums and factory tours when an excellent communication between guide and participants is required.

Due to the global available 2.4 GHz ISM band technology, the very handy and small units ensure crisp and clear sound.

For individual requirements the TelMe transmitter (art. no. 29951) can be combined flexibly with the needed amount of receivers (art. no. 29950)*.

For a more comfortable use the receiver can be worn around the neck with a thin lanyard delivering 20 hours operating time. Furthermore a comfortable and hygienic headset and a USB-charging cable is also included.

*Optional accessory:

- ▶ CM01 clip microphone, Ord.-No.: 29954 (for transceiver)
- ▶ EHR01 headset, Ord.-No.: 29955 (for transceiver)
- ▶ CB20 multiway charging case for 20 receivers, Ord.-No.: 29956
- ▶ CB40 multiway charging case for 40 receivers, Ord.-No.: 29957

Features:

- ▶ Worldwide compatible due to 2.4 Ghz ISM band solution
- ▶ User friendly
- ▶ Receiver compatible to iPhone and similar headsets
- ▶ Crystal clear sound reception up to 100 m range
- ▶ 39 groups selectable and 8 steps volume adjustable
- ▶ 20 hours operating time
- ▶ Convenient Micro USB charging solution compatible with most mobile phone charging adapters

Scope of delivery:

*Receiver, Ord.-No.: 29950:

TelMe Receiver, earphone, lanyard, USB charging cable, 1100mAh battery

*Transceiver, Ord.-No.: 29951

TelMe Transceiver, microphone, lanyard, USB charging cable, 1100mAh battery

> TelMe Headset-Receiver

The TelMe headset receiver is the wireless version of the TelMe handheld receiver. The TelMe headset receiver has the same technical specifications and characteristics like for example the crystal clear sound. The receiver is very small, wireless and mounted directly to the headset so both of your hands are free to use. A USB charging cable is included in the delivery content.

- ▶ 12 hours operating time
